

## NJIT HOSTS NEW JERSEY BIOMEDICAL SHOWCASE

NJIT hosted more than 300 students, researchers and educators and 25 companies in March 2005 at the second annual New Jersey Biomedical Engineering Showcase and Career Fair. The theme of the showcase, held in the NJIT Campus Center, was "Creating Connections – Enhancing the Synergies between Biomedical Engineering and Biotechnology." The goal of the event was to provide a forum to discuss scientific and business issues of central importance to the biotechnology, medical device and pharmaceutical industries.

In addition to NJIT, the co-hosts of the showcase included the Biotechnology Council of New Jersey, the Health Care Institute of New Jersey, the New Jersey Commission on Science and Technology, Rutgers University, Princeton University, the University of Medicine and Dentistry of New Jersey, Stevens Institute of Technology, the Public Health Research Institute and the New Jersey Center for Biomaterials. Sponsorship support was provided by Cushman and Wakefield, Lowenstein Sandler, Schering-Plough, the New Jersey Economic Development Authority and the Whitaker Foundation. Below are some scenes from the event.
