## **"NJIT Library Resources for Biomedical Engineering Graduate Students"**

### *Abstract:*

Want to research effectively and efficiently? Come and learn what the NJIT Library has to offer to Graduate Biomedical Engineering Students.

We will focus on advanced features of Scopus, Google Scholar, and PubMed and more.

Zotero, the open source and free citation management software, will be demonstrated.

Helping you find the most relevant resources and cite them quickly is our goal.

### **About the Speaker**

#### *Jennifer A. King*

Jennifer has been a science librarian supporting academic institutions for 15+ years. Prior to that she earned her B.S in Biology, from State University of New York (SUNY), College at Geneseo and a MLS from City University of New York, Queens College.

#### *Jill Lagerstrom*

Jill has worked for government agencies (NASA, STScI) and academic institutions since 1999. She has an A.B. in Classics from the University of Chicago, an MLS from Rutgers University and a nearly-completed Masters in Instructional Design from Seton Hall University.
